“ I was deeply saddened to hear of the loss of your dear son, Christopher. He was taking one of my online Economics courses at East Central College. Unfortunately, with an online course there is not much personal interaction between students and professor. I do most communications through emails. He, as well as your entire family, have been and will be in my thoughts and prayers. I understand what you are going through as a parent. We lost our 9 1/2 year old son, Gus, in 2010 to a virus that attacked his heart (myocarditis). This is a group that no parent, or grandparent, wants to be a part of... praying for your peace and that God stays close to you all through this terrible loss. God bless! Janet Berry

Wanted to thank you for your incredible words as they mean a lot. Our son was a large focus for our world as we were working to build confidence as he was becoming an adult.

“ Christopher was such a caring, smart, and talented young man. He was truly loved and such a pleasure to be around. I will miss our talks, it is not often you connect so quickly and so well with someone. Forever he will be in our hearts. This is only temporary...till we meet again, sweet boy.

“ Chris was such a cool, calm and collected person. He was motivated to become a National Guardsman as well last time I saw him at RSP Drill in June of this year. I was proud of him to see the choice he was about to make to become a soldier. He did make a impact on my life to see how motivation and dedication to serving ones nation is like in this country of ours. He was a great friend as well in JRTOC and Boy Scouts when I would occasionally see him during camping trips with other troops. Such a great guy to be around. I will miss you Chris.

“ Chris was one of my closest friends. He was not just a Masonic brother but my brother in life. I will make sure I carry his memory with me. I remember the day he joined me in DeMolay, and his term as the Master Counselor. He did the best he could during that time. I'm happy to say that he has made an impact on my life. Rest In Peace brother you will be missed

“ The last time I saw him was in Chemistry class one week before his death. He looked fine. I don't understand how he died. It's not fair that he died. He still had a full life ahead of him. RIP Chris. I will miss you.
